# BUZZFEED, INC. POSTS STRONG Q2 FINANCIAL RESULTS AND EXPECTS CONTINUED IMPROVEMENT IN Q3

#### Programmatic Advertising Revenues Grew 3% Year-Over-Year

#### Affiliate Commerce Revenues Grew 9% Year-Over-Year

BuzzFeed, Inc. was the Only Digital Media Company in Competitive Set to Grow Audience Time Spent in Q2 Versus Q1, according to Comscore<sup>1</sup>

**NEW YORK – August 12, 2024** – BuzzFeed, Inc. (Nasdaq: BZFD) reported improved second quarter (ended June 30, 2024) net loss from continuing operations as compared to the prior-year period, and Adjusted EBITDA<sup>2</sup> ahead of the Company's outlook shared on May 13, 2024 and reiterated on July 3, 2024. Second quarter revenues were in line with the Company's outlook, with year-over-year growth in two of BuzzFeed, Inc.'s largest and highest-margin revenue streams - Programmatic Advertising and Affiliate Commerce.

"Our strong performance in Q2 marks a turning point we've been working toward for the past two years," said **Jonah Peretti, BuzzFeed Founder & CEO**. "We are beginning to see the benefits of our investment in a differentiated technology platform that allows us to accelerate AI product development, make our sites and apps more interactive and personalized, and increase the amount of content our team and audience can create using AI-powered tools."

"These changes are beginning to drive deeper audience engagement and improved revenue trends on our owned and operated properties," Peretti continued. "We are not just focused on making small optimizations to our business; our ambition is for BuzzFeed to be the defining digital media company for the AI era, and we will execute accordingly in the coming years."

<sup>&</sup>lt;sup>2</sup> As used throughout, Adjusted EBITDA is a non-GAAP financial measure. Please refer to "Non-GAAP Financial Measures" below for a description of how it is calculated and the tables at the back of this earnings release for a reconciliation of our GAAP and non-GAAP results.

<sup>&</sup>lt;sup>3</sup> The Company determined the assets of Complex Networks, excluding the First We Feast brand, met the classification for "held for sale." Additionally, the Company concluded the disposal, which occurred on February 21, 2024, represented a strategic shift that had a major effect on our operations and financial results. As such, the historical financial results of Complex Networks have been reflected as discontinued operations in our condensed consolidated financial statements. Amounts presented throughout this press release are on a continuing operations basis (i.e., excluding Complex Networks).

<sup>&</sup>lt;sup>4</sup> BuzzFeed, Inc. is herein referred to as "BuzzFeed" or the "Company."

• Time Spent<sup>5</sup> declined 5% year-over-year to 71 million hours

#### **Business and Content Highlights**

- BuzzFeed, Inc. continued to outpace its peers in Q2 as the only digital media company in our competitive set to grow time spent in Q2, up 5% as compared to Q1, according to Comscore. Further, time spent among our core demographic Millennials and Gen Z grew 11% versus Q1.
- Direct traffic referrals are our largest source of traffic: in Q2, 90% of audience time spent with our content was on our owned and operated properties. And, direct traffic across BuzzFeed and HuffPost continued to show stability through the quarter.
- The BuzzFeed team has made **great progress improving audience loyalty**: the number of loyal users users who return to the BuzzFeed web and app more than once in a 7-day period has grown 11% since Q4 2023.
- Engagement has also deepened among our user base, with the number of page views per unique site visitor growing for the third consecutive
  quarter.
- The Company posted a record **Prime Day** in July, with strong double-digit growth in revenues year-over-year, outpacing Amazon's overall Prime Day growth<sup>6</sup>.

#### Third Quarter 2024 Financial Outlook

- We expect **overall revenues** in the range of \$58 million to \$63 million, or approximately 3% lower to 5% higher than third quarter of 2023
- We expect Adjusted EBITDA in the range of \$6 million to \$11 million, approximately \$8 million higher year-over-year at the midpoint

These statements are forward-looking and actual results may differ materially as a result of many factors. Refer to "Forward-Looking Statements" below for information on factors that could cause our actual results to differ materially from these forward-looking statements.

Please see "Non-GAAP Financial Measures" below for a description of how Adjusted EBITDA is calculated. While Adjusted EBITDA is a non-GAAP financial measure, we have not provided guidance for the most directly comparable GAAP financial measure — net income (loss) from continuing operations — due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary to forecast such a measure. Accordingly, a reconciliation of non-GAAP guidance for Adjusted EBITDA to the corresponding GAAP measure is not available.

#### **Quarterly Conference Call**

BuzzFeed's management team will hold a conference call to discuss our second quarter 2024 results today, August 12, at 5PM ET. The call will be available via webcast at investors.buzzfeed.com under the heading News and Events, and parties interested in participating must register in advance at the same location. Upon registration, all telephone participants will receive a confirmation email detailing how to join the conference call, including the dial-in number along with a unique PIN that can be used to access the call. While it is not required, it is recommended you join 10 minutes prior to the event start time. A replay of the call will be made available at the same URL.

We have used, and intend to continue to use, the Investor Relations section of our website at investors.buzzfeed.com as a means of disclosing material nonpublic information and for complying with our disclosure obligations under Regulation FD.

<sup>&</sup>lt;sup>5</sup> Excludes Complex Networks and First We Feast; see definition of "Time Spent" below.

<sup>&</sup>lt;sup>6</sup> +11% year-over-year, according to Adobe Analytics, as reported by CNBC.

#### **Definitions**

BuzzFeed reports revenues across three primary business lines: Advertising, Content and Commerce and other. The definition of Time Spent is also set forth below.

- Advertising revenues are primarily generated from advertisers for ads distributed against our editorial and news content, including display, preroll and mid-roll video products sold directly to brands and also programmatically. We distribute these ad products across our owned and operated sites as well as third-party platforms, primarily YouTube and Apple News.
- Content revenues are primarily generated from clients for custom assets, including both long-form and short-form content, from branded quizzes to Instagram takeovers to sponsored content and content licensing. Revenues for film and TV projects are also included here.
- Commerce and other revenues consist primarily of affiliate commissions earned on transactions initiated from our editorial shopping content.
   Revenues from our product licensing businesses are also included here.
- Time Spent captures the time audiences spend engaging with our content in the U.S. across our owned and operated sites, as well as YouTube and Apple News, as measured by Comscore. This metric excludes time spent with our content on platforms for which we have minimal advertising capabilities that contribute to our Advertising revenues, including Instagram, TikTok, Facebook, Snapchat and Twitter. There are inherent challenges in measuring the total actual number of hours spent with our content across all platforms; however, we consider the data reported by Comscore to represent industry-standard estimates of the time actually spent on our largest distribution platforms with our most significant monetization opportunities. Time Spent presented above excludes time spent on Complex Networks, as Complex Networks is presented as a discontinued operation within our condensed consolidated financial statements. Time Spent on Complex Networks, as reported by Comscore, was approximately 10.0 million hours through the date of Disposition, February 21, 2024, and 21.2 million and 50.0 million hours for the three and six months ended June 30, 2023, respectively. Time Spent on Complex Networks, as reported by Comscore, previously included Time Spent on First We Feast, as First We Feast was historically under the Complex Networks' measurement portfolio of Comscore. However, the historical Time Spent on First We Feast cannot be reasonably bifurcated from Time Spent on Complex Networks. Accordingly, for comparability of Time Spent, we have excluded Time Spent on First We Feast from our measure of Time Spent for all periods presented above and for future reporting of Time Spent.

#### About BuzzFeed, Inc.

BuzzFeed, Inc. is home to the best of the Internet. Across pop culture, entertainment, shopping, food and news, our brands drive conversation and inspire what audiences watch, read, and buy now — and into the future. Born on the Internet in 2006, BuzzFeed is committed to making it better: providing trusted, quality, brand-safe news and entertainment to hundreds of millions of people; making content on the Internet more inclusive, empathetic, and creative; and inspiring our audience to live better lives.

#### **Non-GAAP Financial Measures**

Adjusted EBITDA and Adjusted EBITDA margin are non-GAAP financial measures and represent key metrics used by management and our board of directors to measure the operational strength and performance of our business, to establish budgets, and to develop operational goals for managing our business. We define Adjusted EBITDA as net loss from continuing operations, excluding the impact of net income (loss) attributable to noncontrolling interests, income tax (benefit) provision, interest expense, net, other (income) expense, net, depreciation and amortization, stock-based compensation, change in fair value of warrant liabilities, change in fair value of derivative liability, restructuring costs, and other non-cash and non-recurring items that management believes are not indicative of ongoing operations. Adjusted EBITDA margin is calculated by dividing Adjusted EBITDA by revenue for the same period.

We believe Adjusted EBITDA and Adjusted EBITDA margin are relevant and useful information for investors because they allow investors to view performance in a manner similar to the method used by our management. There are limitations to the use of Adjusted EBITDA and Adjusted EBITDA margin may not be comparable to similarly titled measures of other companies. Other companies, including companies in our industry, may calculate non-GAAP financial measures differently than we do, limiting the usefulness of those measures for comparative purposes.

Adjusted EBITDA and Adjusted EBITDA margin should not be considered a substitute for measures prepared in accordance with GAAP. Reconciliations of non-GAAP financial measures to the most directly comparable financial results as determined in accordance with GAAP are included at the end of this press release following the accompanying financial data.
